- 16" x 20"

3-IN-1 VACUUM PLATEN

A DTF Platen that Simplifies Set-ups

The Livingston Systems 3-in-1 Vacuum Platen is a frustration-free solution for single-sheet DTF printing, eliminating the need for taping and preventing film slips or curling. Designed for shops using Brother DTG printers looking to expand into DTF, this platen is easy to install with no tools required—just slide it onto the existing mount, attach the power cable and hose, and start printing. Its innovative design allows quick size adjustments with a simple lever rotation, improving speed and simplicity in every DTF print.
