Optimize Your Production Requirements

A smarter system empowered by advanced chip technology provides an automated workflow so you have more efficient spray time and less downtime. With the smart intuitive user interface design, you will always be up-to-date on important maintenance functions. Get quality and consistency with these easy to use smart features:

- ✦ Digital level monitoring of all tanks for full maintenance control
- ✦ Six (6) custom spray presets to manage volume for optimum spray amounts per garment
- ✦ Smart maintenance notifications remind you to perform important tasks
- ✦ Scan-to-Spray barcode feature and barcode generator to simplify your workflow
- ✦ Internal log file is written and can be downloaded via USB

Technical Specifications

Spray Area	24.8" x 24.8" (63 x 63 cm)
Number of Nozzles	5 Spray Nozzles
Number of Tanks	Two (2) Pretreats, One (1) Water, One (1) Waste
Control Panel	7" Touch Panel Display
Scales	Four (4) for notification of liquid for refilling/emptying
Automated Functions	Auto start up and shut down routine + automated pump cleaning functions
Dimensions	38.6" x 37.8" x 20.5" (98 x 96 x 52 cm)
Weight	200 lbs (91kg)
Electrical	100 – 240V, 160W and 1.6 amps
Additional Items Included	Stand, five nozzles, ultrasonic cleaner
