

CUT SMARTER. FINISH FASTER!

DTF CUTTER STATION

The Schulze DTF Cutter Station is designed to help simplify your production workflow, making it easier to handle larger volumes of transfers. Its intuitive design supports consistent, precise cuts while helping keep your workspace organized. By reducing the effort required for repetitive tasks, it can help you save time, minimize mistakes, and focus on what matters most – growing your business.

Features:

- Load up to 32" wide rolls
- Utilize up to 7 vertical blades
- Adjustable barcode reader positioning
- Adjustable speed controls for stand alone and inline cutting
- Built-in collection tray for transfers
- No separate software needed
- Load a printed roll or feed the cutter directly from the printing line

Spend less time on cutting and more time on your business.

The DTF Cutter Station helps streamline your workflow and reduce manual effort, so you can complete jobs more efficiently, stay on schedule, and focus on growing your business.
