

# WHEN QUALITY DEMANDS MORE

## GTX600 Enhanced

Take mass production DTG to the next level with the GTX600 Enhanced. This new solution includes a specialized finishing fluid treatment designed to elevate washability for high-end garment printing.

This exclusive chemical enhancer ensures exceptional durability, meeting the demands of garment decorators requiring the highest standards for premium applications, retailers, and high end brands. When quality demands more, Brother delivers.

Finishing Fluid  
9 Liter

### Key Features:

- Enhanced washability and durability for the highest retail quality
- Finishing fluid printed over design with dot-for-dot coverage
- Choose from multiple print resolutions for finishing fluid output
- Built for industrial-level performance for fast, continuous production
- Built-in humidifier and intelligent platen height system
- Advanced bulk ink system that filters and degasses inks
