

# DIRECT TO FILM ROLL TRANSFER SOLUTION

Brother GTX R2R

## ENGINEERED FOR PERFORMANCE

*Experience high productivity and low operator involvement, thanks to our 5th-generation industrial print heads, which feature internal white ink circulation and a wet cap system.*

### Get long print runs without sacrificing quality

Our two 4-channel piezo on-demand print heads with internal fans help keep ink consistently flowing

### Simplify a step

The adhesive application and curing device has a built-in ionizer and a infrared curing system, for effective application

## WORKFLOW AUTOMATION

*Automate your processes and maximize efficiency utilizing built-in tools.*

### Work Smarter

Save time with features to remove background colors, automatically resize your design, nest intelligently, and utilizing barcodes to track your product and its specs at every step.

### Specialized Print Modes

Three professional print modes, designed specifically for the Brother Innobella Textile inks: High Speed, Standard, and High Quality.

GANG UP SMALL DESIGNS

HEAT  
SENSITIVE  
ITEMS

DARK POLYESTER

STRETCHY FABRICS

## HIGH QUALITY PRINTS

*Enjoy brilliant prints - our Innobella Textile inks provide an opaque white under base and allow for a large color gamut.*

### Durable

Prints maintain strong washability and stretchability, even for synthetic fabrics.

### Customizable

Utilize DTF application process for oversized products and heat-sensitive items.

## AT YOUR SIDE SUPPORT

*Keep your equipment running and maintain your profitability with minimal operator training.*

### Industry-leading support

Certified Brother technicians and Brother Academy's online support resources are available to your team.

### Two-year Limited Warranty

Brother stands behind our products with a two-year limited warranty as well as a one-year bumper-to-bumper warranty.
