

GTX^{pro}

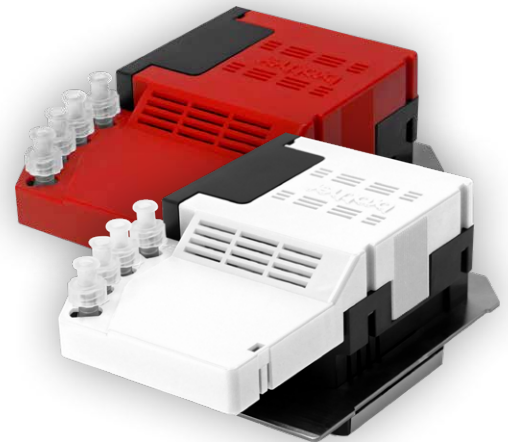

B

Next generation technology.
A history of reliability.

The Brother GTXpro B is backed by our At Your Side Commitment.

- 2 Year Limited, 1 Year Bumper-to-Bumper including Print Heads
- Solid metal transport rails for extra durability and precise print registration
- Brother-built industrial print heads for crisp output at 1200 DPI
- Durable metal maintenance station body and key moving parts made for reliable and smooth operation
- Multi-day onsite installation and training and technical support available
- Access to Brother Academy - an online resource for training new employees, learning new application techniques and maintaining the DTG equipment.
